

— BY INVITATION · APAC EXECUTIVE SUMMIT 2026

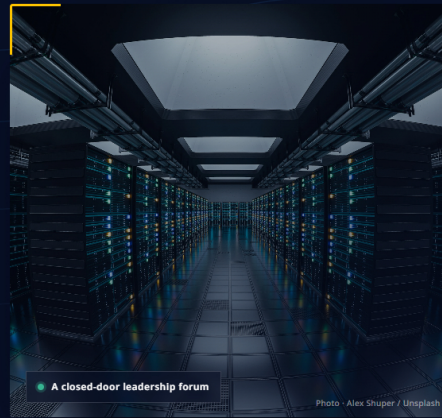

The infrastructure decisions shaping AI, sovereignty & sustainability across Asia-Pacific.

A closed-door, sixty-minute leadership forum for the executives defining APAC's digital infrastructure. Independent market analysis, real enterprise strategy and candid boardroom debate — a board-level agenda, not a product pitch.

- 60-minute executive summit
- Live & virtual
- Board-level, invitation only
- Dates to be announced

WHY ATTEND

Three forces are rewriting APAC's infrastructure economics.

This is the room where senior leaders decide what to do about them — one focused hour, no slideware, every voice independent or enterprise-side.

AI INFRASTRUCTURE

AI is now a boardroom decision

Capacity, cost and capability have moved to the top of the house. The summit frames the choices CEOs and CIOs are weighing right now — not the procurement detail.

DATA SOVEREIGNTY

Sovereignty is reshaping roadmaps

Data-residency and control requirements are accelerating across the region. Understand what compliant, resilient infrastructure looks like in practice — and where the lines are moving.

ENERGY & SUSTAINABILITY

Energy defines the economics

Power, efficiency and ESG now drive data-centre strategy. See how leaders are balancing growth against sustainability — and what that means for the next investment cycle.

THE VOICES

Three voices, one board-level conversation.

An opening keynote from NTT DATA leadership, an enterprise growth perspective, and independent panel voices — anchoring a candid discussion on the decisions shaping the region.

OPENING KEYNOTE

FEATURED SPEAKER

TO BE ANNOUNCED

Doug Adams

President & CEO,
NTT Global Data Centers Americas

Konstantin Hartmann

SVP, Global Sales & Client Services,
NTT Global Data Centers

Panel voices

Independent analyst & enterprise CIO
perspectives joining the discussion. Names
announced with the final programme.

Speaker line-up is a proposed structure; further voices and full profiles
are announced with the confirmed programme. Headshot slots accept
the official approved images at handoff.

THE HOUR

One focused hour. Six leadership moments.

A tight run of show, built for people whose time is
scarce. Exact timings are confirmed with the final
programme.

- 01 **Welcome & framing** The state of APAC infrastructure, in brief.
- 02 **Opening keynote** NTT DATA leadership on the decisions ahead.
- 03 **Enterprise CIO perspective** Real-world infrastructure strategy from the field.
- 04 **Executive panel** A candid, cross-industry leadership debate.
- 05 **Live audience Q&A** Moderated and attendee-driven.
- 06 **Closing & next steps** A clear path to follow-up.

Proposed 60-minute programme - subject to final confirmation.

REGISTER YOUR INTEREST

Reserve your place at the table.

Dates are being finalised. Register your interest now and
you'll be among the first to receive the confirmed
programme, speaker announcements and your priority
invitation.

01 We note your interest

Your details go straight to the event planning team. Nothing is shared
beyond it.

02 You hear first

Confirmed dates, the final programme and speaker news reach you
ahead of the public announcement.

03 Your priority invitation

Seats are limited and by invitation. Registering now secures your place
in the priority queue.

Express your interest

A few quick details. Fields marked * are required.
